Make sure your backing fabric is 6" bigger on all four sides than the finished quilt top. If you want sashing between the blocks and as a border, the sashing will add 8-12 inches to your quilt width and length depending on the number of t-shirts used. If you choose sashing, (strips between blocks and around the outside of quilt), there will be a \$15.00 charge to cut and add. I carry standard solid colors of colorworks fabric . The quilting design used is a meandering pattern to make the quilt more sturdier.

A \$100.00 down-payment is required and can be made by check money order or credit card. Any returned checks will be assessed a \$35.00 overdraft fee. Final payment will be required at time of pickup or prior to quilt being shipped. (If paid by check, the quilt will not be shipped until a check has cleared the bank which takes approximately 10 days).
